

ung der Walderhaltung im Rauchschadensgebiet von Nordrhein - Westfalen

Measures for Forest Conservation in the Fume - damage Areas of Northrhine - Westphalia

gefährdung der Wälder im Ruhrgebiet
 Vorschlag der LIB zur regionalen Abgrenzung
 waldbaulicher Vorsorgemaßnahmen
 gegen Immissionsschäden vom 13.1.1969
 und Stand vom 1.1.1970

Proposals of the LIB for Zoning of Silvicultural Precautions against Fume Damages, dated January 13.1969

A Metropolitan area A with high air pollution, strictly limited choice of tree species, and great need for financial support of forest owners

B Marginal zone B with medium high air pollution limited choice of tree species, and medium need for financial support of forest owners (partly within and partly outside the borders of previous delineation from 1966 to 1969)

C Extension of the marginal zone B as result of administrative reorganisation by January 1.1970

St. Kr. Area of the IIIrd measurement programme (SO₂)

--- Border of area where the replacement of sensitive species was subsidised from 1966 to 1970

— New proposal of the area where forests need support against impact by air pollution
